Siyavuya Power Projects

SHEQ POLICY

Doc No: SHEQ-POL-001
Rev No: 1
Effective Date: 30.05.2025
Next Rev date: 30.05.2028

Siyavuya Power Projects is a South African established electrical engineering company providing Engineering, Procurement and Construction (EPC) Services with regards to the construction of transmission and distribution power lines, sub-stations and electrical systems.

Siyavuya Power Projects are fully committed to continual improvement to enhance our Safety, Health, Environmental and Quality (SHEQ) performance, through constant review, in order to provide an effective SHEQ management system. We are committed to the provision of an effective service and product within the scope of our operations. Siyavuya Power Projects strives to provide a full range of quality services and products in order to satisfy the needs of our clients.

To demonstrate our firm commitment to SHEQ, we shall:

- Implement a SHEQ management system in accordance with, but not limited to ISO 9001, ISO 14001, and ISO 45001 requirements.
- Comply to contractual, legal and other requirements / compliance obligations.
- Take overall responsibility and accountability for the prevention of work-related injuries and ill health, as well as the provision of safe and healthy workplaces and activities.
- Commit to controlling and if possible, eliminate identified hazards/ environmental aspects and in particular significant risks/ impacts of our operations to prevent injury, ill health and environmental impact.
- Proactively report incidents and plant failures so we can learn and take action to avoid future harm.
- Ensure that all our employees have the skills and knowledge to be effective and safe in the work they undertake.
- Address the needs and expectations of SPP's workers, customers, interested parties, and stakeholders.
- Establish SHEQ objectives to achieve intended outcomes and measuring performance against these to ensure continual improvement.
- Ensuring that all contractors and suppliers SHEQ performance are adequately managed, monitored and influenced.
- Ensuring that adequate resources are available for SHEQ management.
- Ensure prevention of pollution to the environment.
- Protect the environment in all aspects of our business and in particular, significant aspects of our operations to prevent an adverse environmental effect.
- Recycle / reuse materials where practical.
- Minimize the environmental impact for the life cycle (including disposal) of all plant, equipment and other physical assets under our control.
- Consult with workers and worker representatives regarding SHEQ matters and ensure participation of workers within the SHEQ management system.
